Appliqué

Sew (1) **inner sashing** strip to a light teal **background**; press toward inner sashing. Repeat with second background.

Your diagram has two pages, a **Reverse Diagram** and an **Assembly Diagram**. When tracing shapes for fusible appliqué, use the Reverse Diagram.

Before assembling applique, decide whether you want window panes in your windows. If you do, remove paper backing from windows and trace window lines with a fine-tipped permanent marking pen *(such as a Micron pen)*.

Gently peel fusible paper from the back of each of the remaining shapes. Refer to **Assembly Diagram** to arrange shapes on background fabric. **NOTE:** Schoolhouse and tree trunk will be sewn into outer sashing seam; align these shapes with the raw edge of background.
Place shapes 1-18 (schoolhouse, tree, and flag), and appliqué in place using the method and stitch of your choice.

Sew (1) **outer sashing** strip to bottom of **background**; press toward outer sashing. Repeat with second background.

Place remaining shapes, 19-32 (wagon and apple), and appliqué in place using the method and stitch of your choice.

If desired, stitch window panes using a straight stitch (sewing over the lines twice to make them stand out).

Assemble Table Runner

Sew blocks together in a row, pressing seams open. Sew one appliqué unit to each side as shown.
Finish Table Runner

Layer top, batting, and backing. Quilt as desired.

Piece binding into one long strip. (We used a straight seam so we could match up the plaid.) Fold in half lengthwise, wrong sides together, and press. Line up raw edges of the binding with the raw edge of the table runner. Sew binding to the front side of the table runner, starting at any side. Turn the binding over and hand stitch to the back of the table runner.

If desired, add (1) cream button to the center of each wagon wheel and (1) black button for the doorknob, securing with the thread of your choice.
